

INTRODUCTION

The e-brochure linked from our website features a full range of products from our key suppliers. Whilst not exhaustive, it's a great place to pick up ideas and a useful tool for us to share information with you and your team.

The e-brochure can perform a number of tasks that we hope you may find useful. Some of these are obvious, other less so. Here a few 'pointers' to help you get the best out of the experience - feel free to contact us for more support or for a hard copy.
